

NATIONAL MOBILE CALIBRATION & TESTING PROGRAM

Testing and calibration is at the very heart of what we do at CELEMETRIX.

Regular calibration of meters/instruments and testing of electrical safety products is not only critical, in most cases, it is mandatory.

At CELEMETRIX we understand the importance of knowing that your assets are safe, accurate and performing to an optimal standard; ensuring you and your employees are adequately protected.

TRACEABLE & COMPLIANT

“WE PROVIDE A SUPERIOR, COST COMPETITIVE ON-SITE MOBILE TEST AND CALIBRATION SERVICE THAT COMES TO YOU”

Established in 2005, CELEMETRIX founded its Mobile Calibration & Testing program as a result of an increasing customer need for a localised on-site calibration and testing service.

Today, our program operates on a global platform servicing the needs of Australia, New Zealand and South-East Asia.

We understand the significant costs on your business of being without critical assets for long periods of time; unnecessary downtime and loss of productivity.

That's why at CELEMETRIX we provide:

- a superior, cost competitive on-site mobile test & calibration service that comes to you
- a rapid turnaround time that logs, services and safely returns your items to you within only a few hours
- guaranteed quality assurance; ISO9001 certification. Assets remain highly traceable, adhering to the relevant statutory requirements (always complying with Australian or International appropriate Standards and State requirements).

Our mobile Calibration capabilities include, but are not limited to:

OTDRs, Optical Light Sources, Power Meters and Attenuators

Fusion Splicers and Cleavers

DTX 1200/1800 Cable Testers

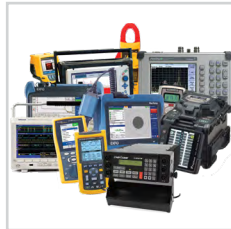

DTX MFM/SFM/OTDR Modules

Fluke Optifibers

PDH/SDH BERT Testers from 2Mb/s-10Gb/s

Ethernet Testers 10Mb/s-10Gb/s

Optical Spectrum Analysers/Multi Wave-length Meters

Our mobile Testing capabilities include, but are not limited to:

Insulating Gloves and Sleeves

Insulating Mats

Fiberglass Insulated Tools

Insulating Blankets

Soft & Hardcover Line Hoses

Hydraulic Tool Hoses

Live Line Temporary Bridges

Line Covers & Hoses

Pole, LV, and Tower Rescue kits

Ladders

Pole Leakage Detectors

HV Testers

Inspection on height safety equipment to AS/NZS 1891.4

Inspection of synthetic lifting slings to AS4497.2

Pole Platforms

LV Insulated Tools

HV Phasing Devices

While these listed capabilities provide a comprehensive range of test and measurement equipment, we can also perform more complex jobs subject to advanced notification.

Although we endeavour to service most assets on-site, there are some instances where assets may need to be returned to our labs. In this case we can offer you our 24 hour FastTrack service option.

So if you require a total mobile servicing solution for your testing and calibration equipment without the need for unnecessary and costly downtime, contact CELEMETRIX today on 1800 256 838.
