

Celemetrix Service & Repair Capabilities

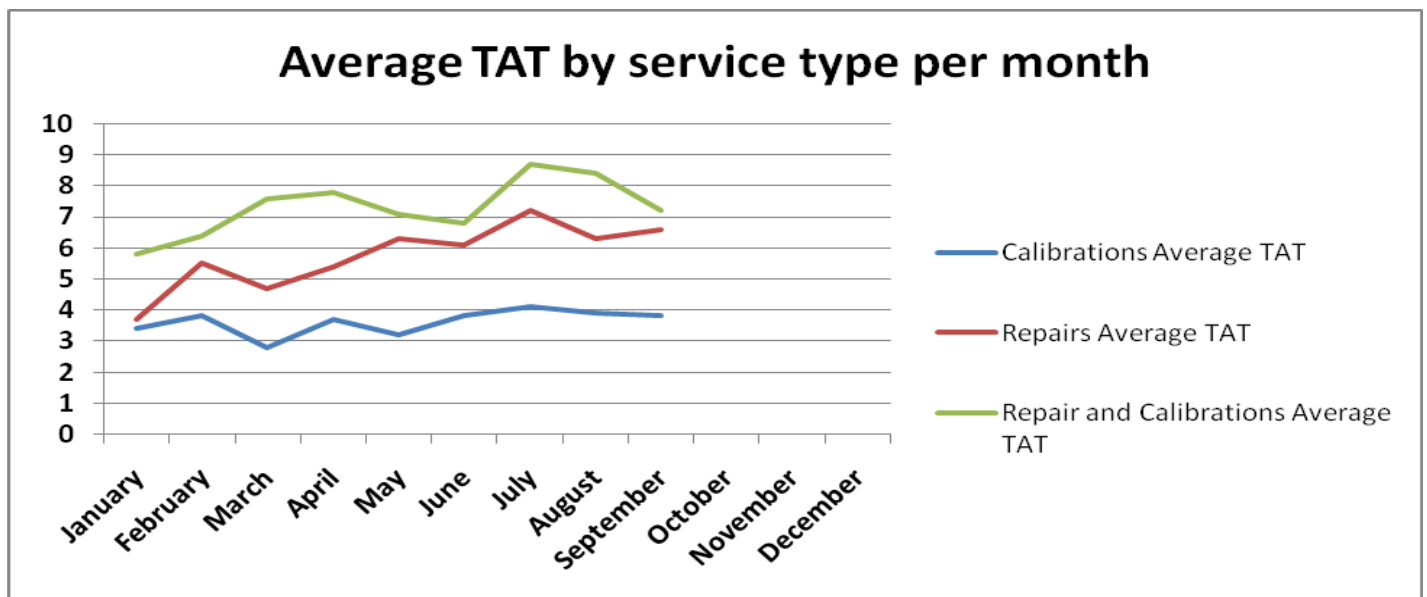

- **Optical, Transmission, Voice, Power (AC/DC) & RF**
- **Local facilities ensure fast turnaround time**
- **Board Level Repairs**
- **Nationally traceable calibration services**
- **Trusted service centre for Anritsu and Fluke Networks**

The Celemetrix Service Centre offers calibration, repair and functional testing services across a range of test equipment used in many different industries.

Celemetrix services most instrument brands and is also the trusted service centre for Fluke Networks and Anritsu – two of the largest global test and measurement brands.

What sets us apart from others in the industry is our ability to consistently achieve short turnaround times as a result of our extensive local infrastructure, large team of trained technicians and comprehensive fleet of hot swap equipment.

HISTORICAL SERVICE PERFORMANCE

- CAL TAT (Internal Only)
- REPAIR TAT (Internal only)
- CAL + REPAIR TAT (Internal only)

Unit 18/56 Norcal Road, Nunawading Vic 3131 Australia.

SERVICE CAPABILITIES

Cable Testers

Fibre Optical Cable Testers:

- OTDRs (Optical Time Domain Reflectometers) Multi-Mode and Single-Mode
- Insertion Loss Test Sets - Light Sources, Power Meters and Combined Loss Test Sets
- OSA (Optical Spectrum Analysers) and Wavelength Meters
- Optical Attenuators
- Optical Talk sets
- Fibre Identifiers

Fluke Networks - Copper and Fibre Cable Testers:

- DTX & DSP Series Cable Analyser
- Complete range of Fluke Networks Optical Fibre testers

Transmission and Signalling Testers

- SDH/SONET Testers (155Mbps STM1-10Gbps STM64)
- PCM/PDH /ISDN Testers
- SS7, ISDN and GSM signalling testers
- Protocol analysers
- Ethernet Testers and Analysers (10,100,1000Mbps and 10Gbps)

Electrical Testers

- Multimeters (Analogue and Digital to 6.5 Digit)
- Clamp Meters
- Power Analysers
- Portable Appliance Testers (PAT)
- Insulation Resistance Testers
- Continuity testers and earth (ground) resistance testers
- Impedance and Ground bond Testers
- Residual Current Device (RCD) Testers
- Current Leakage Testers

RF Measurement

- Signal Generators
- Arbitrary waveform generators
- Swept Generators
- Power Meters and Sensors
- Spectrum Analysers to 26.5Ghz
- Cable and antenna analysers
- Frequency Counters
- Attenuators
