CELEMETRIX

the art of measurement

GET OPTIMUM PERFORMANCE FROM YOUR MAXTESTER WITH CELEMETRIX

**Do you have a Maxtester
630 / 635 / 635G / 635 V2XAA?
Is your Maxtester over 3 years old?
Are you operating with the latest
firmware?**

Maxtester Calibration Service Package at

\$373 +GST which includes the following:

- Calibration with data to manufacturer's specifications - All results traceable to National Standards
 - Upgrade of firmware to latest version where required
 - Installation of any manufacturer's service alerts
 - Verification of Maxtester battery and accessories
 - PSU and leads tested and tagged
 - Calibration and service history registered directly with the Manufacturer
- If unit fails to meet specification, adjustment is included in the calibration price

MAXTESTER Repairs

If your Maxtester fails calibration, Celemetrix will assess the equipment and provide you with a quote for repairs in-house if we are able to achieve this, or by the manufacturer overseas.

Should you choose not to go ahead with the repairs, a Minimum Repair Fee of \$195 + GST will apply.

Can't be without your equipment? Try our Maxtester Calibration Loan Package

For \$523 +GST Celemetrix can offer you:

- Calibration Service Package (as described above)
- PLUS the use of a loan Maxtester to reduce your downtime

** Conditions apply & contact Customer Care / Maxtester Loans for more information*

The manufacturer recommends getting your equipment calibrated every three years to ensure you receive accurate test measurements

If you require EXFO accessories, please contact COMMSFORCE on 1800 852 022

For all your requirements please call **1800 256 838** or info@celemetrix.com.au
